

ANT-GSM-E

GSM ANTENNA

The ANT-GSM-E dual-band antenna is designed to work with alarm control panels and communication modules which have GSM telephone and standard SMA connector. The IPX-SMA adapter allows you to use the antenna also for other devices operating in the 900/1800 MHz frequency bands.

ANT—**GSM**—**E** antenna design enables it to be mounted on enclosures offered by SATEL.

- 900/1800 MHz antenna
- SMA male connector
