Sate1[®]

SPP-110 CONVENTIONAL FIRE ALARM SOUNDER

The **SPP–110** sounder is used for acoustic alarm signaling. The sounder is designed to work with the SATEL fire alarm control panels (conventional: **CSP–104**, **CSP–108**, **CSP–204**, **CSP–208**; addressable: **ACSP–402**).

- acoustic signaling by means of piezoelectric transducer
- 32 selectable tones
- astallation/oddr(GRRPell 10) and white (SPP-110-W)

TECHNICAL DATA

Maximum humidity	95%
Weight	225 g
Power supply voltage	1828 V DC
Current draw when emitting an alarm	15 mA
Operating environment	А
IP rating	IP21C
Dimensions	108 x 108 x 87 mm
Operating temperature range	-10°C+55°C
