

## **B-1M**

## SURFACE-MOUNTED MAGNETIC CONTACT (WHITE)

Magnetic contacts constitute basic elements of perimeter protection systems and their primary task is to detect attempts of opening doors and windows. Medium–size **B–1M** tight magnetic contacts are designed for surface mounting. They may be glued or screwed to a surface. The contacts are available in white and brown colour versions.

- surface mounted (screw mount or self adhesive)
- medium sized sealed body

## **TECHNICAL DATA**

Max. switched current         500 µA           Operating temperature range         -10+55 °C           Weight         20 g           Maximum humidity         93±3%           Make distance         30 mm           Break distance         33 mm           Dimensions magnet enclosure         51 x 9 x 13,5 mm           Environmental class according to EN50130-5         II           Detector type (outside magnetic field)         NO		
Operating temperature range         -10+55 °C           Weight         20 g           Maximum humidity         93±3%           Make distance         30 mm           Break distance         33 mm           Dimensions magnet enclosure         51 x 9 x 13,5 mm           Environmental class according to EN50130-5         II           Detector type (outside magnetic field)         NO	Max. reed switched voltage	100 V DC
Weight         20 g           Maximum humidity         93±3%           Make distance         30 mm           Break distance         33 mm           Dimensions magnet enclosure         51 x 9 x 13,5 mm           Environmental class according to EN50130-5         II           Detector type (outside magnetic field)         NO	Max. switched current	500 μΑ
Maximum humidity         93±3%           Make distance         30 mm           Break distance         33 mm           Dimensions magnet enclosure         51 x 9 x 13,5 mm           Environmental class according to EN50130-5         II           Detector type (outside magnetic field)         NO	Operating temperature range	-10+55 °C
Make distance         30 mm           Break distance         33 mm           Dimensions magnet enclosure         51 x 9 x 13,5 mm           Environmental class according to EN50130-5         II           Detector type (outside magnetic field)         NO	Weight	20 g
Break distance         33 mm           Dimensions magnet enclosure         51 x 9 x 13,5 mm           Environmental class according to EN50130-5         II           Detector type (outside magnetic field)         NO	Maximum humidity	93±3%
Dimensions magnet enclosure 51 x 9 x 13,5 mm  Environmental class according to EN50130-5 II  Detector type (outside magnetic field) NO	Make distance	30 mm
Environmental class according to EN50130-5 II  Detector type (outside magnetic field) NO	Break distance	33 mm
Detector type (outside magnetic field)  NO	Dimensions magnet enclosure	51 x 9 x 13,5 mm
,	Environmental class according to EN50130-5	II
Reed switch enclosure dimensions 51 x 9 x 13,5 mm	Detector type (outside magnetic field)	NO
	Reed switch enclosure dimensions	51 x 9 x 13,5 mm
